Printer Installation Instructions for Mac

Please be sure to follow the instructions for your specific MacOS. To check your version, click the Apple icon in the upper-left corner and choose "About This Mac"

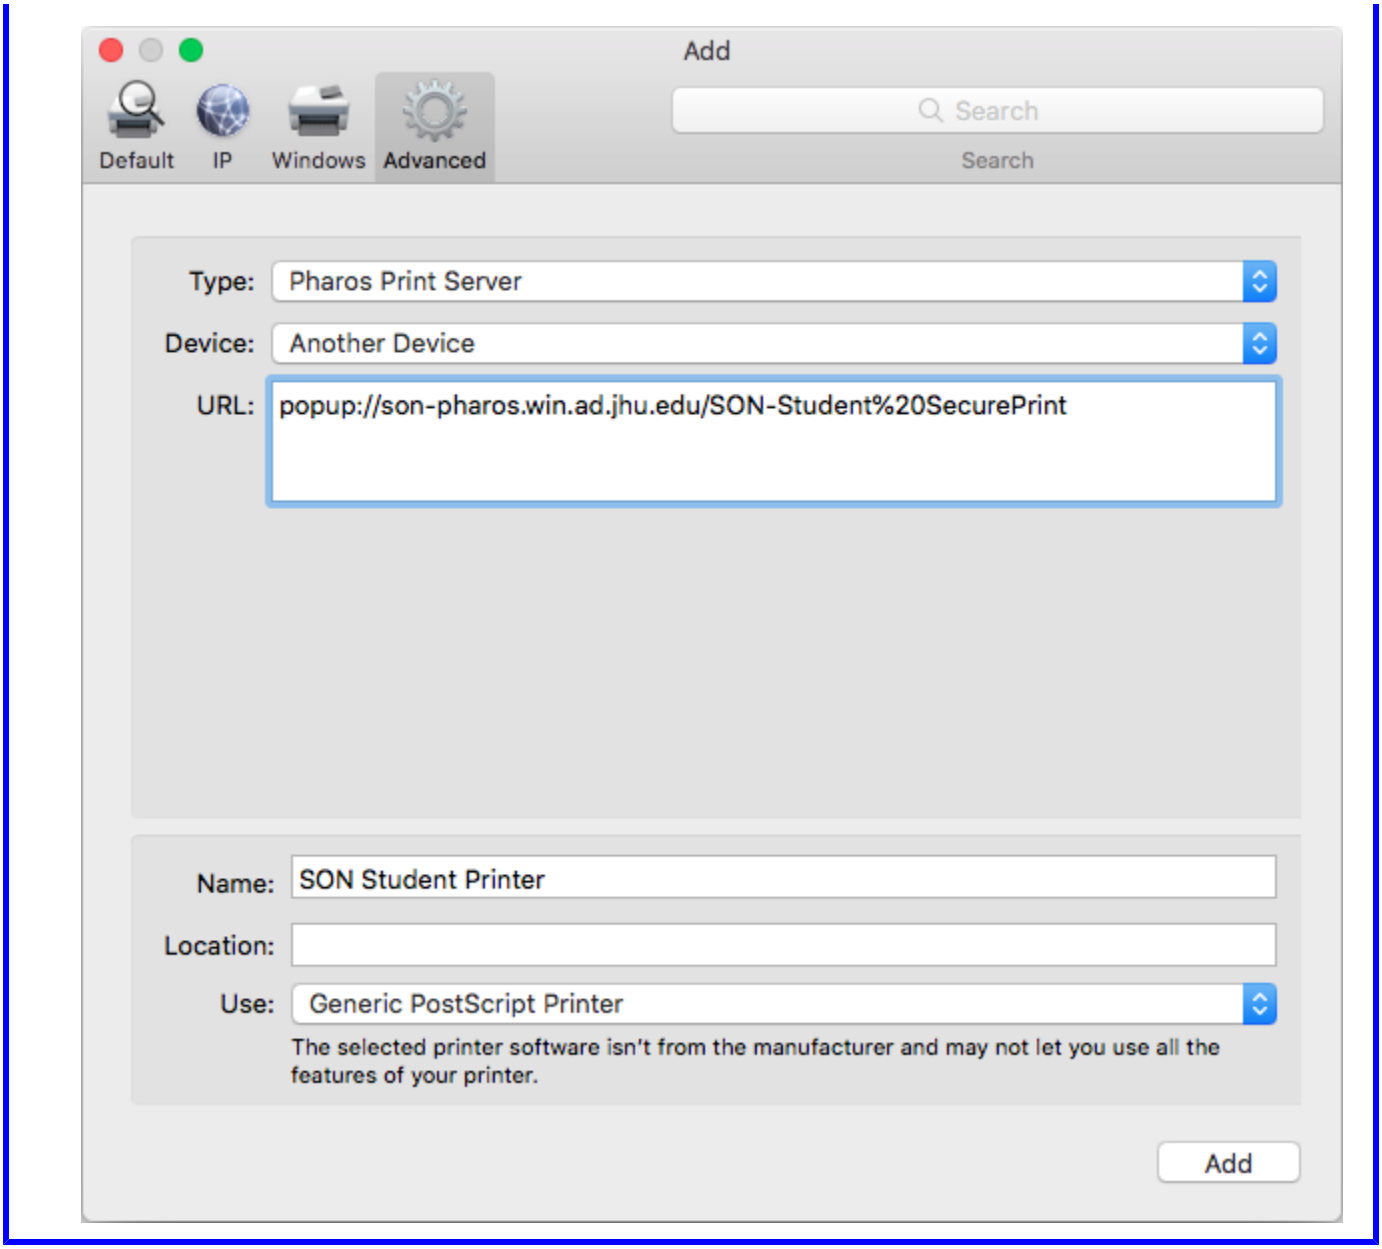

Instructions for MacOS 12.x (Monterey) and higher

1. Please use the **Safari** Web Browser
2. Click on link to download the setup file: Popup.dmg (note you must be connected to the VPN or Hopkins WiFi network for this link to work)
3. Open the **Downloads Folder** and select the **Popup.dmg** file you downloaded.
    - NOTE: If you receive the warning message "**App can't be opened because it is from an unidentified developer**" **control-click** the application and choose "**Open**"
4. Open the "**Popup**" drive mounted to your desktop and install the **"Popup.pkg"**

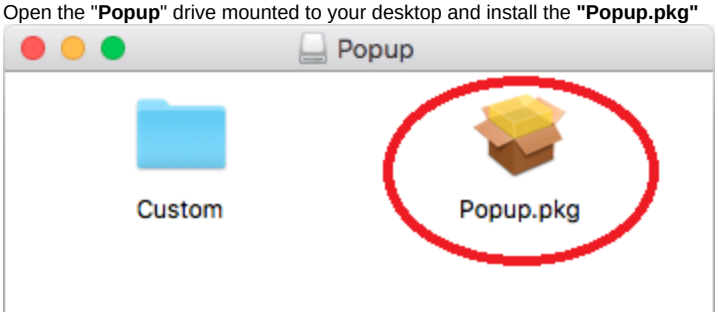

5. Select **Continue** on the "**Introduction**" and "**Read Me**" dialogue windows.
6. Select **Install.**
7. Provide **Username** and **Password** to local machine (or fingerprint authorization) if prompted.
8. Open System Preferences and click on the **Printers & Scanners** icon.
9. Click the **Add Printer, Scanner, or Fax...** button in the lower Right corner of the window.
10. Hold down the **Control** key on the keyboard and click anywhere on the toolbar. From the popup menu that appears, select **Customize Toolbar...**
11. Drag the **Advanced** icon to the toolbar and close the customization dialog.
12. Click on the **Advanced** button in the toolbar.
13. In the **Type:** field, select **Pharos Print Server**.
14. In the **URL:** field, enter **popup://son-pharos.win.ad.jhu.edu/SON-Student%20SecurePrint**
    - It is highly recommended that you copy and paste the entire URL above to avoid a typo. If you do, make sure you paste over the existing "popup://" value.
15. In the **Name:** field, enter **SON Student Printer**
16. In the **Use** field, select **Generic PostScript Printer**
17. See the sample image below for what your screen should like like.
18. Click the **Add**
19. Be sure to select the **Duplex Printing Unit** check box on the popup window and click **OK**
