

New student JHED credentials

The JHED ID that you will use to access almost all Hopkins resources will be automatically generated approximately 200 days prior to your first day of class. You will receive notification of the JHED creation at the e-mail account you specified when you applied. This message will include instructions for activating your JHED account and Hopkins e-mail address.

If the start date for your classes is closer than 180 days and you have still not received your JHED ID, you should contact the [SON Registrar's Office](#).

If you have received the e-mail notification regarding your JHED ID and are having difficulty activating it, please contact the [SON Help Desk](#).
